YIMBY Winnipeg advocates for an affordable and sustainable Winnipeg, that grows up, not out.

We're dedicated to spreading information on the positive benefits of infill and dense, walkable development in Winnipeg.

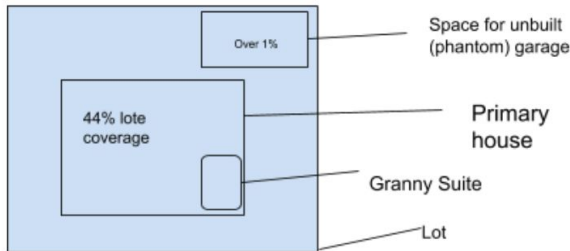

YIMBY is short for "Yes, In My Back Yard".

Benefits of Granny Suites (aka secondary suites)

- Provide affordable housing
- Helps homeowners pay mortgage
- Keeps family close

Stop the war on granny suites!

Did you know?

Proposed rules under consideration by the City could reduce maximum lot coverage for infill homes to 45%?

This includes space for a garage, ***whether you build one or not!*** (Phantom Garages)

This will make space for granny suites harder to include in infill projects..

Join the discussion and let City Hall know if you support granny suites!
